

# Crew Lists - Clubs

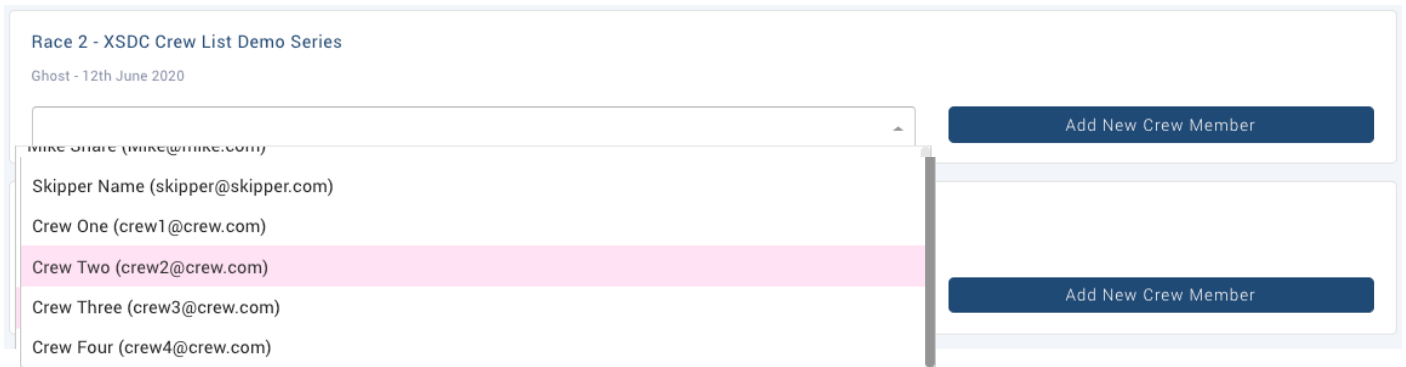

If your club is required to maintain a list of who is sailing for possible contact tracing then SailSys has a simple solution that is now active on your club's SailSys portal.

All Skippers now have a crew menu item on their dashboard that allows them to nominate the persons that will be on-board.

They can add crew at any time by simply choosing past crew from the drop-down or add a new crew member

Adding past crew is as simple as selecting from a drop-down for the relevant race

Adding new crew is simple, Currently only first & last name plus email are mandatory.

**Add Crew Member For Ghost**

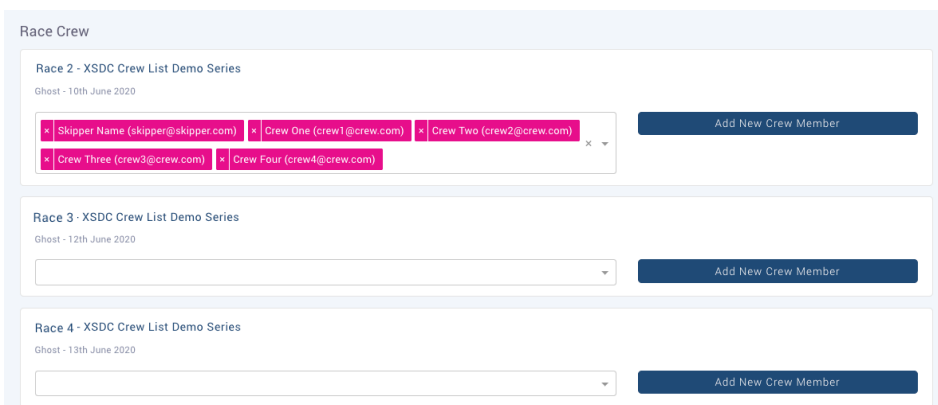

Firstname

Surname

Email

Mobile No.

AS No.

The skipper can populate crew lists in advance and the information is retained permanently by race and is accessible to the club at any time.

This important information is securely maintained and accessible by the club at anytime.
